

Bespoke Rug Collection

Custom Rugs For Residential & Hospitality Interiors

ABOUT THE COLLECTION

We are very excited to debut our bespoke rug collection.

All of the Rug Collections are designed in Atlanta Georgia in collaboration with a rug designer and artist who has more than 20 years of experience in the interior design and rug industry.

Her creative process is very free and intuitive and often starts from paintings and collages. We believe in rug designs with integrity that transcend time, complementing and enhancing contemporary architectural styles.

We choose colors and textures in only the highest quality yarns. We want our rugs to not only look and feel good, but also be long lasting and enduring.

We want to make each rug uniquely yours and offer numerous customizable options in terms of design, color, yarn, construction, size and shape.

Our rugs are ethically sourced with a respect for sustainability and every person in the process from artisan to client.

We support the preservation of quality hand craftsmanship and its synthesis with modern technology.

All of the designs are available in the curated colors shown or can be made in custom colors that work with your design. We can also create the rugs in custom sizes or shapes.

We can also collaborate with you to create a custom rug inspired by one of our beautiful custom drapery fabrics, the possibilities are endless!

We look forward to working with you and helping you create a beautiful custom rug for your

Upcoming projects!

Shown above in 8ftx10ft (2.44m x 3.05m)

AMORPHOUS

Hand knotted

Design Ref: MVM24

Yarn: 85% handspun wool

15% Bamboo silk

An organic pattern in a rustic Tibetan weave, skillfully knotted to create a dimensional loop and pile surface texture. Silk highlights in the motifs reflect and catch the light.

Max width: 15ft (4.57m)

Max length: 40ft (12.19m)
