CANVAS WALL ART

Thick layers of paint are hand applied to create movement and texture across the canvas, making each piece unique; no two will be exactly the same.

THE CREATIVE PROCESS...

Having that unique piece of art makes a room. But what makes the art is the story behind its creation.

Our collection features original works of art, hand painted on gallery wrapped canvas. The subject matter ranges from elements of nature, to renditions of the human form to pure abstract imagery. Be inspired by our unparalleled use of color, texture and dimension.

We invite you to browse the following pages to experience our Wall Decor collection for 2021 and the inspiration behind them.

As I walked through the mist covered botanical gardens, I came upon a water lily covered pond. The rising sun had yet to burn off the morning mist that partially covered the foot bridge that spanned across the water. The bridge seemed to mysteriously disappear into the mist.

Amazing what sticks in your head as an artist. One such memory was a project at craft camp as a child. We layered colored sand under glass to create patterns. Years later, I am still playing with patterns!

One day while walking through Central Park, I came upon a section of broken sidewalk. As I grumbled about the state of disrepair, I noticed a few single poppy plants had sprouted through the cracks, one proudly in bloom! I walked away with a smile on my face thinking that the beauty of nature is everywhere.

CONTACT US

We owe our continued success to the strong team we have working behind the scenes. From our team in China, to our home team in Addison, IL, to our sales force across the continent, every member is in a position where their special talents can shine.

While we are not a huge company, our group of approximately 40 individuals contribute to the success of HEC. The benefits of having such a small group allow us to work in a more intimate setting and the ability to offer a personable, hands on approach to every aspect of the company.
