Where is Monet? , Wall Art #92397
61.75"w x 61.75"h x 1.75"d
Canvas/Wood
Gold Finish
Spring 2023

I have been mesmerized by Claude Monet's paintings of his garden in Giverny all my life. I created "Where Is Monet" as a tribute to this talented impressionist painter. Lots of layers paint and gesso were added to give the garden and water pond a depth and life all their own.

The elegant shape of each scalloped corner separates this mirror into a league of its own. The multi beveled mirrored border and the soft champagne colored edging gives each Jansen mirror an air of sophistication. Whether this mirror graces someone's dressing room or entryway, it will definitely make an impression.

"Festival In The Park" was inspired by a small festival that was taking place one late summer weekend. The colors of the multi-colored lights, flags, and tents created the start to a colorful palette in this painting. The different layering of heavy brushstrokes and other material added important texture and depth.

The Zara collection took its inspiration in the beginning from a small pair of english candlesticks. The concept was to create a modern version that would be sometimes oversized and sometimes slightly unexpected. The small open design pillar holder started us off in cast aluminum with a contemporary ebony finish. This makes a bold statement in candlelight in any decor from traditional to modern.

One morning while walking through the local farmers market, I happened to come across a georgous bounty of freshly cut peach colored anemone bouquets. Since these are one of my most favorite flowers, I snatched up several bouquets and headed home. After a few days the blossoms started to fade so I thought it would be a perfect time to create the work entitled "French Blush Anemone Bouquet". Now these little flowers can last all year round.

The layering of various shapes cut out of paper was the basic start for the work entitled "Color Split". Once the basic shapes were laid out, I started to add my layers of paint and gesso. The build up of the layers along with some added material the work started to come to life. The deep rich teal color tones and the slight hint of gold leaf highlights the original idea of splitting colors.

The late 1960's modern architecture influenced everyday culture from the way we wore our hair to the way we decorated our home. Classic shapes and designs from that era are still popular in today's lifestyle trends. Nature once again was the muse that created the La Marr collection. Tropical foliage, each with their own unique textures and size, were pressed into molds that would later become beautiful home decor elements. We decided to give the collection a contemporary twist with finishing each of these in a high gloss white. Perfect as a sculptural piece for the tabletop or as a functional vase to show off the season's best blooms.
